EXPERIENCE

Virtual Reality Game Developer

SAE Institute Mexico

2022 - 2024

- Followed the pipeline for asset creation from concept art in Krita, blocking, modeling in Maya, sculpting in Z-brush, texturing in Substance and engine implementation in Unity.
- The project got used as a promotional material in conventions to get students to study at SAE Institute.

3D Render Designer

Re'Inventa

2020 - 2023

- Using Arnold in Maya i brought interior design concepts to clients to visualize blueprints.
- Utilizing my expertise as a 3D Render Designer, I converted blueprints into visually captivating digital settings. With a strong ability to create renders and conceptualize spaces, I was able to drive my creative influence in materializing architectural concepts.

Graphic Designer

BioTerra

2016 - 2019

- Created company logo, flyers and social media advertisements to promote the company's core values and products. This resulted in the company taking off.
- With my skills in graphic design, I excelled at producing engaging social media content. Known for designing influential logos that capture the core identity of the company.
